

Information Technology Solutions

# Corporate Overview

Global Provider of IT Services Since 1992

Corporate Headquarters - Irving, Texas

## About SPI

SPI is a leading global provider of information technology services for commercial, military and government applications. Founded in 1992, SPI is headquartered in Dallas, Texas, with an office with a comprehensive offshore development and delivery center in New Delhi, India. SPI is a certified minority/woman-owned corporation and an approved prime supplier for leading organizations that include the U.S. Department of Defense, U.S. Department of Agriculture, Texas Instruments, Raytheon, JCPenney, Citigroup, Sabre, BNSF Railway and Dallas/Fort Worth International Airport. The company is ISO 9001-2000 certified with a delivery methodology in line with SEI-CMM level III standard. SPI has a "Secret" clearance with the U.S. Department of Defense and a GSA schedule.

BUSINESS

## "Build-it or Staff-it" - Business, Military and Government

SPI's commercial experience includes expertise in the retail, high-technology/ manufacturing and transportation industries. In the government sector SPI has comprehensive experience in the development of solutions for federal and state agencies, including the development and integration of proprietary software and systems for U.S. military facilities. The company also provides contract staffing services. SPI customizes its services according to client requirements for flexibility, velocity and cost efficiency. They include:

- Application Management
- Enterprise Infrastructure
- e-Learning
- Database Services
- Custom Development
- Web Site Development

MILITARY

## Offshore Development and Delivery

SPI delivers its services in three models: On-Site, Off-Site and Offshore. SPI is one of only a few IT solutions firms of its size in North America with wholly owned off-shore development facilities. SPI teams in the U.S. and India work closely to provide clients with a 24/7 development and delivery environment.

## Awards

SPI has won a number of regional and national awards for rapid-growth and quality. These include the Inc. 500, Dallas 100, Dallas/Fort Worth Tech Titan Fast50 and the Texas Crescent Technologies Award. In addition, SPI is ranked in the Top-50 Indo-American owned businesses by Indus Business Journal magazine, the top 100 minority owned companies in DiversityNews and in the annual "Top 200" by the Dallas Morning News-minority owned listing.
